- Carol Long FFC Member
- Cathy Shultz FFC Member
- Debby Triebel FFC Member

From the Director ...

Kathie Harms

March is here, and it does not seem possible! I am getting a bit sad knowing that we are nearing the end of the school year. I have had a blast getting to see each child grow and learn and just getting to spend time in the classrooms. I absolutely love what I do, and I am beyond grateful for all the supportive families we have here at First Federated Church! Everyone is truly amazing.

We still have spots for the 2017-2018 school year. Spots are filling up quickly so if you would like to reserve a spot for the upcoming school year, please turn in your registration form along with your registration fee. If you have any questions please do not hesitate to ask. I am always here to help.

If you have not yet turned in your vision and hearing screening permission forms along with the \$16.00 dollars please do so by Monday March 6th. Thank you!

Reminder: If you need a statement printed or emailed for tax purposes, please let me know. Our tax FEIN number is 37-0661142.

Little Lamb

Ms. Lisa & Ms. Lindsay

The Little Lambs have a lot planned for the month of March. Our month is started off by celebrating the work of Dr. Seuss and his birthday on March 2nd. For the week of March 6th we will be talking about what it means to be a friend. We will also tie being a bucket filler into this week as well.

March 13th through the 17th we will be talking about all things green. Of course that means we have to include St. Patrick's Day as well.

The Little Lambs will have their parent teacher conferences on March 23rd and March 24th. Sign up times will be posted outside of the classroom the week of the 13th.

Finally, the last 2 weeks of March will be spent learning about outer space. The children always have a lot of fun with this theme. Who knows? Maybe we have a future astronaut in our class!

News from BoPeep:

Ms. Brittany & Ms. Sarah

We began the month of March learning about Dr. Seuss. We will also begin our unit of Outer Space. We will be doing several science experiments, cooking activities, and projects to help students

understand our solar system. For St. Patrick's Day we will spend the week of St. Patty's day learning about

Ireland, the color green, and those tricky Leprechauns!

Jack and Jill Update:

Ms. Jill & Ms. Lisa

This month we will finish our Space theme. Starting the week of the 13th we will focus on St. Patrick's Day. We will be making rainbows, learning songs, and a few Irish dance steps. With the first day of spring being March 20th, we will talk about the changes that we will see. Robins are coming back and we will learn about them and look for them.

We will have a field trip to the planetarium on Thursday March 23rd. We will leave at 9:50 and return around 12:00.
